EAN13: -

Smooth Sided Thermoplastic light bulb socket - E26

Finish: White, Black

#### Product short description:

This is the base light bulb socket we use daily here at Creative Cables. At the heart of almost every light bulb socket cover we offer is the light bulb socket. And it's likely the perfect socket for you to use in the making and manufacturing of your lighting.

This thermoplastic E26 socket is made in Italy to the highest standards. It's UL listed and works with standard/medium E26 base light bulbs. A fantastic socket at a great price. This socket works with all our pendant light cables.

**WARNING: a strain relief cable clamp is NOT included.** On our website go to Lamp Parts & Shades > Lighting Accessories > Strain Reliefs to select the strain relief to go with your light bulb socket. Any of our strain reliefs will work with this light bulb socket.

UL Listed: E190302

Height: 2 - 1/8 inches (54 mm)

UL Listed: E190302

Note that this thermoplastic light bulb socket has a built-in locking safety device that does not allow you to unscrew it once assembled. (This is to protect you from electric shock.)

We ship all our light sockets

not fully assembled and twisted closed

so that the built-in locking safety mechanism is not "locked" when you receive it.

If the safety device does somehow become locked you can unlock this security system, located inside the socket on the side, with a small screwdriver. Please see our tutorial page for videos on how to unlock these light bulb sockets. And If you attempt to unlock the socket you must have the power

Disconnected

to the socket before inserting anything into the socket!
